Canada Wonders What His Political Future Will Be.

PARTLY TO BLAME FURPAC. SDEFEAT

His "Parting of Ways" Address Wrought Much Destruction to Forces of Laurier and Reciprocity-Power of New Premier Will Be Complete.

Montreal, Quebec, September 22 .-That popular post-election puzzle, "How did it happen?" has fascinated all Canada to-day. "Reciprocity is all Canada to-day. "Reciprocity is repudiated," states an evening paper in three-inch type, beneath which, in a cartoon headed "The Archangel In three-inch type, beneath which, in a cartoon headed "The Archangel Casins the Destroyer," a figure of Casins the Destroyer," a figure of Casins the Destroyer," with the drawn sword of "Loyalty" enchains the prostrate "Reciprocity" with a chain of votes. "Yesterday's victory was not a triumph of any political party," an editorial declares. "It was won by a patriotic coalition of Conservatives and Liberais, determined that the dream of a great imperishable Canada should not be dispelled." Another paper, displaying the severed heads of the eight defeated Laurier ministers, insists that the time had

Among the Causes.

Fear of annexation, disagreement with the government's naval and transportation policies, and an anxiety lest the principle of national development be abandoned was the assigned cause for the change which gives the Borden Conservatives a majority of at least forty-eight in the new House of Commons.

of Commons.

The Borden regime will be inaugurated with even more completeness of power than is indicated by the mere tatement of majority. Of the 132 Conservative seats, but one is held by a Nationalist. The names of the victorious leader and the defeated one have not been more on the popular t ngue to-day than has that of Presdent Taft. What, if any, effect the result would have on his political career, or on that of his party, was much discussed.

much discussed.

That his own quoted words, to which were assigned meanings he has said were unintended, have been some of the most potent weapons against reciprocity, is generally conceded. The "parting of the ways," as synonymous with the "severance of British ties" wrought much destruction to the Laurier forces.

Canadian milling and industrial stocks generally were strong to-day with considerable price gains in several instances.

The tables showing the vote by provinces afforded interesting study for the polizicians to-d.y. It was noted that the Conservative gains in the maritime provinces were seven to the government's three. In the grain growing and Western provinces the government increased its representation by but one, while the Opposition secured four new seats. The two most populous provinces showed the most serious government disaffection. The Opposition gained 23 to the government's 2 in Ontario and 14 to 4 in Quebec. Deferred elections in four districts are expected to result in four Conservative gains, experience showing that under such conditions a majority of the electorate prefer their representative seated on the side of the party in power.

Will Be No Delay.

The Borden party will soon take up
the reins of government. That Sir
Wilfrid Laurier will allow no technicalities to delay the opening of the
Twelfth Parliament is certain. Today he went to Ottawa from Quebec,

It is expected that he will retire at the earliest moment consistent with ory and deposit its models and pine the proper arrangements of the large affairs which have so long been under as control. That his striking figure and strong personality will be missed in public affairs is certain.

The Liberal organs describe the Premier's defeat as nothing short of a national calamity.

Congratulates Borden.

Toronto, September 22.—Sir James Whitney, premier of Ontario, wired his congratulations to R. L. Borden, the premier-elect of Canada to-day.

WALL STREET IN TURMOIL

It is overwholmed by Wild Outburst of Selling Orders.

New York, September 22.—The stock market was overwholmed to-day by a wild outburst of selling which for a tilme resulted in demoralization and swift depreciation in market values. Alarm at the reports or approaching dissolution of the United States Steel Corporation resulted in an enormous volume of selling by honders of the corporation's stock in all parts of the country and in Europe. The defeat of rectprooity in the Canadian elections contributed to the unsettlement of the market. Not since the panic which grew out of the Northern Pacific "Corner" ten years ago has such a convulsion of the stock market occurred.

Wall street was in utter confusion. Officials of t.e. Steel Corporation maintained their silence and the situation remained vitually unchangen. The only fact which stood out from the confused rumors and opinions was a definite statement from Attorney-General Wickersham that no arrangements for the dissolution of the corporation had been made, and that no such action had been proposed to the Department of Justice. This put an end to the widely circulated reports that the corporation had proposed a plan of dissolution to the Department of Justice, with the idea of averting a dissolution with the situation said that the corporations's officials had formed ne denite plan of day of stress and turmoil Wall Street was as completely in the dark as at its bebinning.
